MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Economic Overview :

Indian's economy is diverse, encompassing agriculture, handicrafts, textile, manufacturing and a multitude of services. The advent of the digital age has gradually transformed India as an important "back office "destination for global outsourcing of customer service and technical support.

Industry Structure and Development – Overview :

NBFC's play a vital role in the context of Indian economy. They are indispensable part in the Indian financial system because they supplement the activities of banks in terms of deposit mobilization and lending. They supplement the role of the banking sector in meeting the increasing financial needs of the corporate sector, delivering the credit to the unorganized sector and to the small local borrowers. NBFC's has flexible structure than banks. Their flexible structure helps in broadening the market by providing the saver and investor a bundle of services on competitive basis.

With virtually all finance company business lines coming under greater competitive pressure, defining strategic initiatives and backing each with the necessary resources has become imperative for success .On the consumer side of the business, the ability to compete in various product offerings often is dictated by operational efficiencies and economies of scale. In this respect NBFC's face problems of high cost of funds because they lack the nation wide branch network and have a comparatively lower Tier-I and Tier- II capital base.

We witness that NBFC sector, in India are facing stiff competition from different banks and financial institutions. The cost of funds of banks is lower as compared to NBFC. Not only this, they have a very wide network and huge capital base which makes them more attractive than NBFC. However as the market is volatile in nature, the long term growth of capital market calls for a matter of concern.

Opportunities, threats, risks and concerns :

Your Company has operations in finance and equity investments. The independent finance industry issues debt and lends the proceeds to individuals (consumer finance companies) and corporations (commercial finance companies) on both a secured and unsecured basis. Unlike the commercial banks, whose deposit taking ability adds significantly to funding availability, finance companies rely almost exclusively on institutional borrowings and access to the public debt markets for funding. Consequently, the ability to access the short, medium and long-term markets at competitive rates is critical to their ongoing viability. Your company faces tough competition from Nationalized, Foreign and Private Sector Banks due to their ability to grant loan at a considerably low rate of interest.

Your Company is exposed to external and internal risks associated with the business. It is exposed to strong competitive pressures and financial risks from changes in interest rate, economic cycles etc.

There is a major threat coming from Banks. Banks have reduced the rate of interest, this has reduced the spread, thereby reducing the margin. The volatile nature of market also poses another threat. Your Company also faces stiff competition from Nationalized, Foreign and Private Sector Banks as they provide loans at a very low rate of interest.

Risk Management :

The nature of your Company business exposes it to a wide variety of risks and if not managed properly it can affect the workings of the Company.

Economic risk is there because any slow down or recession in the economy has direct impact on the turnover and performance.

To manage Interest Rate Risk of the Company is very well within the overall unit of Debt Equity Ratio and cost of borrowing is also very low. Company is also not using short term borrowings to fund long term assets.

To manage default risk, most of the customers are repeat customers or referred by existing customers with a good track record who stands as a guarantor mitigating the default risk.

Given the sensitive nature of the sector, funding is closely linked to the overall image of the sector as well as the regulatory environment. Any change in these factors could affect the overall liquidity risk for the Company. Moreover existing banks are moving into retail sector and regional banks like Assamese banks are coming into play, which poses major concern for your Company. The volatility in the market is a matter of concern. However economic parameters being strong will upsurge the economy. Your Company has a well defined and prudent business practice and a comprehensive Risk Management Policy to manage this risk.

Your Company sees opportunities in the market with existing and new customers. Your Company has dedicated accounts team to focus on each customer. Rising input costs and volatility in material, energy are some of the key challenges that your Company is addressing by specific initiatives for each.

Future Outlook :

Your Company intends to invest in businesses related to infrastructure, telecommunication, soft ware etc. in the coming years since it sees good prospect in these areas. It would definitely try to establish itself and remain as a strong player in the finance industry. With the Capital market expected to be in a better mode than the previous few years and with our efforts we can look forward to a prosperous year for the company.

Again, the need for micro credit by a significant part of the society continues to remain underserved by the banks. The scope for Micro Finance Companies to supplement the banking channel remains high.

However this segment also remains a sensitive segment given the profile of the clients, typically from the low-income groups. Hence it is of utmost importance that the NBFC sector deals with clients in a very fair and transparent manner. The recent RBI Regulations in this regard would go a long way in ensuring fair play by NBFCs.

Internal Control Systems and their adequacy :

The Processes are internal control system plays a critical role in the health of the Company. The Company has well defined documented policy guidelines and has an adequate internal control system commensurate with its size and nature of business and suitable internal control procedures that ensures efficiency of operations and safe guard of its assets.

These procedures are designed to ensure :

- That all assets and resources are used efficiently and are adequately protected;
- That all internal policies and statutory guidelines are complied within letter & spirit;
- The accuracy and timing of financial reports and management information.

Material Development in Human Resources/industrial relations front number of people employed :

The Company believes that people are the primary asset and key to the success and growth. Looking after people makes good business sense because, if people are motivated, service excellence will follow. The relations remain cordial throughout the year between employees and the management. Here people work in synergy to contribute towards the achievement of the business objectives. The importance of providing training and development opportunities to our employees is recognized by our Company to enhance their skills and experience, which in turn enables the Company to achieve its business objectives.

Financial and Operational Performance :

The performance of the company during the current year has not improved in comparison to previous year.

Cautionary Statement :

Statement in the Management's Discussion and Analysis describing the Company's projections estimates, expectations or predictions may be forward looking predictions within the meaning of applicable securities laws and regulations. These forward-looking statements are based on certain assumptions and expectations of future events over which the Company exercises no control. The Company cannot guarantee that these assumptions and expectations are accurate or will be realized. Actual results may differ materially from such estimates, projections, etc. whether expressed or implied.

**ANNEXURE 'B' TO THE INDEPENDENT AUDITORS' REPORT
of Even date on the Financial statement of CMS Finvest Limited**

**(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements'
section of our report of even date)**

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of **CMS Finvest Limited** ('the Company') as of March 31, 2016 in conjunction with our audit of the financial statements of the Company for the year ended and as on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (the 'Guidance Note'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit.

We conducted our audit in accordance with the Standards on Auditing prescribed under Section 143(10) of the Act and the Guidance Note, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records

that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note.
